

(**Michael Ledoux**)

(statement)

Michael Ledoux is an artist and native son of Dallas who works with resins, plaster and other unique mediums. His extraordinarily original works are collected worldwide. Ledoux is self-taught and has been producing fine art for more than fourteen years. His work has been shown in top galleries throughout Texas and California.

The pieces I produce represent the essence of my expression. The constructive techniques and planning allow for the unfolding of my creative spirit; it's a very natural use of my artistic ability. My aim is to be consistently thought-provoking through new and fresh conceptual work.

– Michael Ledoux
